

OUR PHILOSOPHY

Our journey began in 1993 when we were first introduced to what would become the fundamental building block of Caudalie: grape-seed polyphenols. We were fortunate to encounter the renowned scientist Dr. Vercauteren during a grape wine harvest on our family's estate, Chateau Smith Haut Lafitte near Bordeaux in France. What he revealed to us that day would pave the way to a new approach to dermo-cosmetic skincare. He uncovered the **unparalleled anti-oxidant power of grape and grapevine polyphenols**. We worked closely with the doctor to find a way to harness this power for use on the skin, and were successful with our first patent for the stabilization of grape-seed polyphenols, an unprecedented discovery for the health of skin!

Since our first encounter with Dr. Vercauteren, we have continued together our research of the grapevine for over 10 years. We have **three worldwide patents** for molecules of the vine, and more importantly to us, millions of satisfied clients, as proven by resounding letters and testimonials we receive by the masses each and every day.

Thank you for inspiring us with your comments and suggestions – we have made it our personal commitment to continually innovate and evolve our formulas so that we may always provide you with BEAUTY FROM THE VINE.

We invite you to visit us at www.caudalie.com to learn more about our products, our patents, and our Spas.

Hope to hear from you soon !

OUR ETHICAL COMMITMENT:

- To formulate products without parabens or phenoxyethanol.
- To produce hypoallergenic, non-comedogenic products that may be used in complete safety.
- To use plant extracts titrated with active molecules to ensure consistent quality and results.
- To use a maximum of natural active ingredients (over 100 extracts from different plants).
- Not to test our formulas on animals.
- Not to use ingredients of animal origin.
- Not to use mineral oil in our skincare creams.
- To prove the results we claim on volunteers, through scientific evaluations under dermatological supervision.

Did you know ? Caudalie is a French term that quantifies a wine's length i.e. the duration of persistence in the mouth of the flavors of a wine after tasting. One second of persistence equals one caudalie. The greater the wine is, the more caudalies it has.

CLEANSE AND TONE

The simplest, yet most fundamental secret behind a clear complexion is the cleansing step. This beauty ritual is vital to the health and clarity of your skin. It not only removes impurities that dull the complexion, but also prepares the skin to receive optimum benefits of skincare applied afterward. Follow your cleansing and toning regime morning and evening before applying treatment products.

OUR VINOOTHÉRAPIE® SPAS

THE VINOOTHÉRAPIE, THE "ART OF THE VINE".

In 1999 Caudalie created the first Vinothérapie® Spa in the world, located in the center of the Château Smith Haut Laffite vineyard in Bordeaux. In this magical oasis, our Vinotherapists provide you with treatments based on the vine and grape benefits combined with the mineral qualities of warm spring water drawn from 540 meters deep.

Since then, Caudalie has created 2 other wonderful Vinothérapie® Spas. One is located amidst the Italian grapevines of Piémont, the other in Sonoma Valley, California. In each of our Spas you will encounter the now famous Barrel Bath where bubbling spring water is enriched with beneficial grape properties.

You will be transported to an environment of rare beauty to discover exclusive treatments such as the Honey and Wine Wrap, Exhilarating Massage, the Crushed Cabernet Scrub...
